### Summary

---

Aspiring Front-End Developer with hands-on skills in modern web technologies. Proficient in building responsive, interactive user interfaces using HTML, CSS, JavaScript, and React. Experienced in styling with Tailwind CSS and equipped with foundational knowledge of C++ for understanding core programming logic. Passionate about creating clean, efficient code and continuously expanding expertise in frontend development.

### Skills

---

**Front-End Stack:** HTML5, CSS3, JavaScript, React, Tailwind CSS

**Development Tools:** VS Code, Git, GitHub, npm, Responsive Design

**Programming:** C++ (Programming Fundamentals)

### Experience

---

**Frontend Development (Self-Learning Projects)** 2024 – Present Personal Projects — HTML, CSS, JavaScript, React

- Built multiple frontend applications including Weather App, Notes App, Quiz App, and To-Do List App using HTML, CSS, and JavaScript.
- Developed responsive user interfaces following mobile-first design principles.
- Implemented API integration, DOM manipulation, and browser localStorage for dynamic functionality.
- Used Git and GitHub for version control and project management.

### Projects

---

**Weather App** | *HTML, CSS, JavaScript, Weather API*

2025

- Developed a responsive weather application that displays real-time weather information based on user-entered city names.
- Integrated external Weather API to fetch temperature, humidity, and weather conditions using asynchronous JavaScript.
- Implemented clean UI and mobile-friendly layout for seamless use across mobile and desktop devices.
- Strengthened skills in API integration, async/await, and DOM manipulation.

**Notes App** | *HTML, CSS, JavaScript*

2025

- Built a notes management application allowing users to create, edit, and delete notes efficiently.
- Used browser localStorage to persist notes data across sessions.
- Created a user-friendly and responsive interface focused on simplicity and usability.
- Improved understanding of JavaScript logic and state handling.

**Quiz App** | *HTML, CSS, JavaScript*

2025

- Developed an interactive quiz application with multiple-choice questions and real-time score calculation.
- Implemented dynamic question rendering and answer validation using JavaScript.
- Enhanced user engagement through instant feedback and result display.
- Practiced event handling and DOM manipulation techniques.

**To-Do List App** | *HTML, CSS, JavaScript*

2025

- Created a task management application to add, delete, and mark tasks as completed.
- Designed a cross-device compatible interface layout to ensure smooth usage across different screen sizes.
- Focused on clean UI and intuitive user interaction.
- Strengthened JavaScript event handling and logical flow implementation.

## Certifications

---

### Bits and Bytes of Computer Networking | *Coursera*

2025

- Completed a foundational course covering computer networking concepts including OSI and TCP/IP models, IP addressing, DNS, and HTTP/HTTPS.
- Gained understanding of how data is transmitted across networks and the basics of internet infrastructure.

## Education

---

**Vellore Institute of Technology, Bhopal**Bhopal, India Bachelor of Technology (B.Tech) in Computer Science2023 – 2027

- Currently a third-year undergraduate student.
- CGPA: 7.68
